EASTER

The annual Fanny Bay Community Association's Easter party was organized by volunteer Marissa Cotter with help from several families from the Parent and Tot group. Those families helped set-up games and tables for craft activities as well as decorate the day before the celebration.

Games included Feed the Bunny Bean Bag Toss, Egg on a Spoon Race, Hidden Eggs in Kiddie Pool, Easter Photo Booth and a Rainbow Face Paint station. Upstairs in the studio, an Easter dance party with 'Sharon, Lois and Bram music'. Easter bunny ears and rainbow ribbons were available to dress up in and dance with.

The egg hunt started a half hour into the party and was organized into different categories. A larger more expansive course for older kids and one for 3 and

EGG-STRA VA-GAN-ZA April 15th

under younger children. Their egg hunt course was set-up beside the hall near the picnic area. The older kids course was across the playing field in the wooded area. A parent volunteer dressed up in the Fanny Bay Bunny Suit and was spotted hiding eggs in the woods as children started the course.

Crafting activities that were offered included seasonal colouring pages and egg decorating. Six dozen hard boiled eggs were provided as well as 4 dozen imitation plastic white eggs with various dying - stickers - decals and markers.

The hall looked wonderful with large branches of pussy willows and cherry blossoms, Easter Bunny posters, tissue paper balls and a large colourful photo booth corner with silk flowers and metal letters that spelled out 'Fanny Bay' attached to a large wooden pallet.

Total attendance numbers were 62 older children and 15 little ones. In all, a grand total of 77 children were in attendance.

A huge **Thank-You** from the FBCA board to **Marissa Cotter** who would like to also thank **Kate Paulson, Dave Lindstrom** and **Jaime Shepard** and kids plus **Sarah Rutledge** and family who stayed behind and helped with the clean-up.

Overall, the party was a wonderful success because it was an opportunity to connect with neighbours in celebration of Easter and all things springtime.

ERELENDIS GUITAR QUARTET From Poland, Coming To the Fanny Bay Hall

Mark your calendars for **Saturday, June 10th**, when this exciting group will be performing a concert of classical guitar at the Fanny Bay Hall, beginning at 7pm.

Erlendis Quartet have won prizes in several competitions including:

- International Chamber Music Competition in Cremona (Italy)
- International Competition for Chamber Music with Guitar in Aschaffenburg (Germany),
- Audience Prize in 4th International Competition for Chamber Music with Guitar in Aschaffenburg (Germany),
- International Chamber Music Competition - Orlando Festival in Kerkrade (The Netherlands),
- Competition for Chamber Music in The Royal Danish Academy of Music in Copenhagen (Denmark),
- International Guitar Competition in Olsztyn (Poland),
- Chamber Music Tournament in Bydgoszcz (Poland), where they were competing with forty other ensembles, mainly string quartets and piano trios.

Thanks to their great performances and reviews, the Erlendis Quartet have established themselves as one of the most promising guitar quartets in Europe. During their careers they have been awarded prizes in several guitar competitions in Europe, and have been widely recognized as outstanding soloists as well as chamber musicians.

Since September 2015 the artists have been based in Denmark, where they work and study in Copenhagen. As the first guitar quartet ever accepted at the school, they have been enrolled for soloist postgraduate studies in The Royal Danish Academy of Music.

They will be performing a wide range of pieces from different musical periods and styles, including new music. We are very fortunate to be able to bring this group to the Comox Valley. Look forward to a delightful evening with these very talented musicians.

Tickets, **\$18 in advance**, \$20 at the door, are available at Laughing Oyster Books in Courtenay, Weinberg's Good Food in Buckley Bay, and Salish Sea Market in Bowser. FMI visit www.fannybaycommunity.com or call 250-792-2219

FANNY BAY SALMONID ENHANCEMENT SOCIETY

(FBSES) Wow, oh what a day it was!

Our 10th annual festival "The River Never Sleeps" was an out-standing day with over 500 visitors, 29 FBSES volunteers and 57 people manning their booths. Weather was perfect, good entertainment, concession as usual was much appreciated, great comments by everyone. Definitely a day when families could attend, kids had so much to do, fish painting, face painting, bug education, releasing coho smolts and parents enjoyed talking to people in the many diverse booths.

Thanks to **Erna Smith** for producing our poster, **Sandra Martindale** for advertising, **Brenda Fisher** for concession and the many wonderful **FBSES volunteers** who really made this day possible; if it wasn't for them the festival would not have happened. Our major donors were **Union Bay Credit Union, Island Timberlands, Thrifty Foods, Mac's Oysters, Scott Plastics and Department of Fisheries and Oceans (DFO)**. Winners of the prizes were **Allister Clisham** (Pacific Salmon Foundation print), **Kieran Maxwell** (gift basket) and **Rosie Wood** (gift bag). A perfect day, thank you to all! The cool rainy weather has kept the streams flowing but we know fry salvage could start anytime. This is a labour-intensive job that is carried out by our volunteers, the final outcome is thousands of saved wild salmon that would have died in the steadily diminishing pools. Coho smolt counts - smolts leaving the creeks and rivers for the ocean - have been carried out daily in the Relic Channel (Cook Creek), Wilfred side channel and Mud Bay Creek. The smolt numbers will be sent to DFO.

Again, great work by volunteers! Isn't this amazing! **YOU TOO** can play a part! Come and join our volunteer crew! Our hours of operation are 9 am to 12 pm Wed and Sat, at the Rosewall Creek FBSES hatchery on Berray Road. For more information, visit our website at www.fbSES.ca.

THE FANNY BAY COMMUNITY ASSOCIATION IN CONJUNCTION WITH THE OAP ASSOCIATION HAS SOME EXCITING NEWS!

Do you own a copy of the book *Shingles & Shells – A History of Fanny Bay*? This book was published in 2004 and is now out of circulation. Over the last decade many more people have moved to our great community and they have wanted to buy a copy of *Shingles & Shells* but alas, none were to be had.

This is the exciting news. As part of the Celebration of Canada's 150th *plus* anniversary, the Fanny Bay Community Association with permission from the OAP Association will be reprinting *Shingles & Shells – A History Of Fanny Bay*.

Now it has come to our attention that there were a couple of errors or omissions in the original book and we'd like to make those corrections for the 2nd

edition. We can't rewrite the book; after all it took five years to put together the first one. However, we can add some addendum pages to reflect those changes.

This is where you, as citizens of Fanny Bay can help us out. If you have changes you'd like noted in the 2nd edition, please send them to Tammy Mercer-Gervais at ridingforfreedomranch@shaw.ca or phone 250-218-4672

BEFORE JULY 15, 2017.

Please provide the following information so we can make consistent and correct changes.

1) The page number you need the correction on.

2) What the original book states, e.g. The Knowles family had two sons, eldest Keith and younger son Roger.

3) What your correction should be, e.g. The Knowles family had three sons, eldest Keith, middle son Edward, youngest son Roger.

Unfortunately we cannot add pictures to the addendum pages, text only.

This 2nd edition print run of *Shingles & Shells – A History of Fanny Bay* will have a new cover design and will only be available in a soft cover. The book will be available to purchase at the Canada's 150th *plus* Celebration at the Fanny Bay Hall, **September 23, 2017.**

Watch for details on our FannyBayHall Facebook page.

WATER SAFETY - when choosing a life jacket or PFD, consider the following:

- Check the label or stamp to confirm the flotation device is Canadian-approved.
- Choose one that suits the type of boating activities you will be doing. Will you be wakeboarding? Operating a PWC? Fishing?

- Verify that the life jacket or PFD is appropriate for your size and weight (if a boater falls overboard when wearing a PFD that is too small, it may not support the weight of that person).

- Check that it fits snugly but allows for freedom of movement.

- If purchasing a life jacket or PFD for another person, ensure that it will fit that person.

Safe Boating Tip: If you are in a smaller, open boat (such as a small fishing boat), other boaters may find it difficult to see you. Choosing a brightly-coloured flotation device will help to make you more visible to others.

Choosing a Life Jacket or PFD for a Child Many life jackets, although certified for use, may not properly protect a child. Choose a life jacket or PFD that has been specifically designed for use by children to ensure their safety.

A children's life jacket or PFD should have the following

- A label or stamp indicating that it is Canadian-approved
- An extra large collar to support the child's head
- A safety strap that fastens between the legs to prevent the jacket from slipping over the child's head
- A grab strap located on the collar
- Reflective material & a safety whistle
- **Children** should be encouraged to wear a life jacket or PFD at all times - both on the boat and when they are near the water.

PUTTING ON A FLOTATION DEVICE IN THE WATER

Although we highly recommend that you wear a life jacket or PFD at all times while onboard your boat, here are our tips on how to put a flotation device on in the water.

Find a supervised area in which to practice the following procedure:

1. Spread the flotation device open with the inside facing up and out of the water and the neck facing towards you.

2. Extend your arms through the arm openings.

3. Lift your arms above your head, lie backwards and pull the flotation device around your upper body.

4. Fasten the zippers, straps, buckles and/or ties to ensure a snug fit.

CUT THE BLOOMIN' BROOM! ..while it's energy is in its flowers in May and early June. Cut at ground level. Don't pull. Broom spreads rapidly and densely, choking out native species. A single plant can produce 18,000 seeds that last in the soil 30-50 years. It is a fire hazard and is toxic to animals and the soil. Broom will take over fields, pastures, meadows and farms, and can prevent reforestation. Broom seriously harms forestry, farming, tourism, our ecosystems and our health.

Use Long Handled Lopper. Cut broom at ground level. It will die in the summer's dry heat. If the broom is too big, cut off the manageable branches, including the low stems in the grass. Big broom dies easily. Pull out very young broom. If you and a group of neighbours, want to cut on highways contact info@broombusters first for MoT rules. Do Not Disturb The Soil as disturbance causes more seeds to germinate. Protect grasses and ground covers. Plant grass, native plants or trees.

Cut advancing edge and light infestations first. When you see a few plants alone, cut them first. Work towards the denser areas. Do not let new infestations get started or spread. At least cut off the flowers before seed pods form (June). To dispose of broom - on private land, take it to the dump, compost or burn. After seedpods form, be careful not to spread seeds. Pile in infested area to burn in fall or let compost. Along trails, push cut broom under shade of trees. In some towns, pickup or chipping may be possible but must be prearranged.

Again, please contact Broombusters 250-752-4816, a totally volunteer organization. Join our efforts, it's lots of fun and a community builder. CUT AT YOUR OWN RISK. www.broombusters.org

(Cont'd from page 8)

Be sure that children understand how to properly fit and use their lifejacket or PFD and never consider a flotation device to be a substitute for adult supervision. The life

jacket or PFD should always properly fit the child. Never try to 'make do' with a flotation device and never purchase a larger size with the hope that the child will 'grow into it'.
