WATER CONSERVATION

Why conserve when we live in a rainforest? Although we average more than a meter of precipitation each year, most of this falls between October and March. Our aquifer is replenished by rain and snow melt, but during dry periods, there is little moisture available to recharge it. Environment Canada's seasonal forecast is calling for higher than normal temperatures during May-July. This may accelerate snow melt in the mountains now, so that there's less freshwater melt available to our aquifer later in the summer. Because of our location next to the sea, we are vulnerable to saltwater intrusion if our aquifer drops too low and cannot maintain pressure against sea water to keep it out. This is an issue that affects many coastal communities worldwide, and one we should do everything possible to prevent. Additionally, we all pay for the electricity used to pump water from our wells - conservation keeps water tolls lower for everyone. Finally, we share our home with countless wildlife that also rely on fresh water in creeks and rivers, and by not depleting our aquifer, we help preserve habitat for the creatures that make this such a rich and amazing place to live.

What can we do to help conserve this precious resource? Repair leaking taps, pipes or toilets. Run only full loads in your washing machine or dishwasher. Reduce the length of showers or turn off the water while soaping up. Install low-flow showerheads and aerators to kitchen and bathroom taps. Keep a jug of cold water in the fridge so you don't have to run

THE FANNY BAY INN has created a great way to generate fun and funds for their patrons while also supporting a local non-profit organization. A new twist on the 50/50 draw style. Drop in and 'register' for your own personal number which will go into the weekly draw when you pay your \$2. If your number is drawn you will receive 50% of the pot with the balance given to a local non-profit organization.

FBCA is going to be the recipient of the next 50/50 draw proceeds. Drop in, take a chance to win the weekly draw while supporting your local community association.

SPID REPORT

the tap waiting for the water to cool. Let your grass go dormant for the summer - established lawns will green up when the rains return. Water between 5-9 am or 7-10 pm, and never sprinkle during hot or windy weather, as it will evaporate before it reaches the roots. Set a timer as a reminder to turn off your sprinkler. Raise your mower blades to 2" as longer grass shades the roots and reduces evaporation. Mulch to reduce evaporation and discourage water-hogging weeds. Set up a soaker hose or drip irrigation system that delivers water directly to the roots. Clean paths and driveways with a broom, not a hose.

Already doing these things and looking for more inspiration? Searching the internet for "water conservation tips" will yield many ideas that are easy to incorporate into daily life.

Community Knowledge Sought

SPID's Bylaw Committee is seeking someone with expertise in bylaws. If you can help, please contact Dave Henderson, 250 702 5724, dave.henderson@live.ca

The Ships Point Volunteer Fire Department wants you!

We are always in need of new volunteers to fill the ranks. Application forms for both regular and auxiliary positions are available at the SPID office. Learn new skills, enjoy being part of a team and give back to your community. For more information:

please e-mail Fire Chief Terry Hoffart at spvfd@shaw.ca

COMMUNITY VOLUNTEERS attended a catered brunch on April 15th so the FBCA could thank them for all the things they do for the association throughout the year.

Door prizes added a lot of fun to the day. We would like to acknowledge the generosity of *Butcher's Block* in Courtenay, *Grey Owl Tattoo* in Comox, *FB Inn* in Fanny Bay, *Lighthouse Feed and Garden* in Bowser.

FANNY BAY PICKLERS MET ON APRIL 29th

for their inaugural, "Pickleball is Souper Meet and Greet". It was the first time newly created League #2 met and played with the veterans of League #1.

League #2 was created because of the growing popularity of Pickleball in the Fanny Bay area. The wait list for League #1 continued to grow

and the turn-over, was non-existent. As a result, League #2 was successfully created under the watchful eye of Alaine French.

Our "Meet and Greet" began officially at 10 am with coffee/tea and a presentation by Phil Purnell, owner of Pickleball Haven. He brought lots of racquets for the Fanny Bay Picklers to try out and lots of good advice as well.

Play began earnestly at 10:30 alternating between

Ladies Doubles, Men's Doubles and Mixed. Both leagues played with and against each other with 30 picklers taking part over the day.

Just prior to lunch, Bill Trussler and a fellow fireman, took time to instruct the picklers on how to use the defibrillator situated in the entryway of the Hall. A more in depth explanation will be provided in the future.

Cher Kuss, Marcel Froment and Kathy Schmidt. The Fanny Bay Picklers would like to extend a huge thank-you to Pickleball Haven for donating many of the prizes.

A very good day was had by all with delicious food, many a laugh and exciting action on the court. A big thank-you to all the people

Home made soup and fresh buns were enjoyed by all! Diana Poser and Cher Kuss make 4 delicious soups and Lynne Weber kept the kitchen humming throughout the day.

After lunch, play continued and door prizes were drawn. Congratulations to the winners of the many draws; Bonnie Hoffart, Sean Cable, Jason Tremblay,

who helped to make our first "Meet and Greet" so successful. We look forward to many more combined events with League #1 and #2!

FBSES REPORT

DOES IT SEEM LIKE IT JUST

stopped raining? It didn't rain Sunday May 6th, and that's when 623 people came to the FBSES Berray Road hatchery site for our 12th Annual River Never Sleeps Festival. That 623 included 505 members of the public, which included lots of Fanny Bayites, 36 members of FBSES and 82 other volunteer types from all over the island. Fanny Bay's Volunteer fire fighters even came twice, once first thing Sunday morning to attend a power transformer fire on Berray Road, and then later to set up their own display. FBSES was happy to see them both times, but especially after they reopened Berray to all our River Never Sleeps traffic.

Other numbers are adding up this year: even though that rain just stopped and there's still snow on the hills, some creeks are dropping fast. Ron Mielke and Tom Hutton have started fish salvage on McNaughton Creek, and our first salvage tank contains the 36 coho smolts and seven fry they found in a cut-off pool under the E&N trestle. Fry salvage as it's practised at FBSES is a major contributor to the health of all our streams and the survival of wild salmon.

Some relevant numbers from years past; in the years 1997 to 2014 FBSES volunteers salvaged, which is to say captured, contained, transported, (usually by buckets with air bubblers and by walking a lot of the way) counted into our holding tanks, fed and cared for, and then when the rains returned in November, returned said fish to their same stream homes. For a total of 412,649. Or an average of 22,925 a year although actual numbers- they are all counted, remember - varied from 8,305 in 1997 to 52,312 in 2001, to 9,860 in 2007, to 56,737 in 2014. One reason for the variations

is that every year is somewhat different weather wise, especially in the time the hot weather starts and the streams start to disappear into their gravel beds. The other is that salvage is labour intensive, and needs time and people. Since fry salvage in our creeks is one of those things that belongs in the list of most fun you can have with your clothes on, we really wonder why more people don't want to help. If you'd like to stay dressed and have fun, we have a bucket for you.

More with the numbers: since 2008, Fanny Bay Salmonid Enhancement Society volunteers have logged 80,200 hours of time on the job. And a lot of time is worked and not logged, especially by our executive members.

And we can't talk about numbers around FBSES without a mention of our favourite numbers person, Brenda Fisher, who was our outstanding treasurer, money person and go-to for everything financial around the hatchery. Our loss is minor compared to that of her family and husband Bryan, and many Fanny Bay residents will remember her from the Union Bay Credit Union, but we will all miss our compatriot and co-worker, and friend. Celebration of Life for Brenda Fisher will be held at Dove Creek Hall, 3400 Burns Rd. Courtenay, June 2 from 12:30 to 3:30.

Our website is FBSES.CA and work parties are Wednesday and Saturday mornings with all welcome to visit, tour, join, donate; our opportunities are numberless!

by Dave Sands

WHAT IS A LION AND WHAT DO THEY DO?

I get asked this question all the time. There is not enough space in this Flyer to list all we do.

Where There Is A Need, There Is A Lion.

Our branch is a small part of the big picture. At 1.7 million members, Lions worldwide is the largest volunteer organization providing aid all over the world.

We just paid out our year end budget and can report to this community about the funds raised. It is from our hard work all year long and the generosity of the community.

At Christmas we supported 27 households with food for the table and toys for the kids, as well as quilts from the quilting club, so that they had a better Christmas.

What Can We Do For You?

We will cover some costs of surgery not covered by MSP, eyeglasses, hearing aids, diabetic pumps and some dentistry. If our club cannot cover the whole cost we draw on our societies and foundations that we support. You just need to ask.

This year so far we have paid out funds to:

Beachcombers School, CV Child Development Centre, CV Therapeutic Riding Society, Denman Island - Union Bay - Fanny Bay Community Associations, Fanny Bay Parents and Tots, Fanny Bay Salmonid Enhancement Society, OAP #211, Washer Creek Watershed and Wheels for Wellness.

We also support Easter Seals projects like Camps, Easter Seal House, BC Hear

ing Foundation and Guide Dogs. We will be glad to answer any of your questions at our meetings, the 3rd Monday of the month at the OAP Hall at 7p.m.

Our project this summer is to fix up all the bus shelters. If you would be willing to help give Cliff a call at 250-335-1112.

We continue to do the meat draw to the rockin' sounds of The Ryder Bachman Band on Sunday afternoons at the FBI. All money raised stays in the community.

WE STRIVE TO MAKE OUR COMMUNITY A BETTER PLACE

BUILT SOLID.....BUILT PROUD

SPRING HAS FINALLY SPRUNG!

We love the longer days and warm evenings.

Our May potluck was spaghetti and bingo night which was again a huge success. The meal was wonderful and everyone really got into the spirit of the bingo. This has become a very popular event for us and we will do it again in the fall. Thanks also to Gini Evers for telling us about the CV Senior Caregiver Peer Counselling Program. If you are a caregiver Gini offers a drop in session at the OAP Hall on the 1st Thursday of each month, 1 until 3pm. Bruce says thanks to Gini as well for helping him with the pronunciations of the Italian language!

Moving on to June, our calendar becomes a lot busier. First up is our **Gigantic Garage Sale** to be held **Saturday, June 9th 8:00 AM -3:00 PM**. There will be treasures for everyone plus a bake sale and raffle. Our concession

will be open all day with muffins and coffee early in the morning and hotdogs and beverages all day long. Be sure to buy a raffle ticket from an OAP member for a chance to win some wonderful prizes. Tickets will be available all day while you browse the garage sale.

What will the OAP ladies get up to next? To find out, we invite *everyone* to join us for **Father's Day breakfast** on **Sunday, June 17th between 9:00 -11:00 AM**. The cost for breakfast is \$7.00 per person (kids under the age of 5 eat FREE!). This is always a fun event and we look forward to serving you A FANTASTIC breakfast.

Our next meeting will be held June 12th at 2:00 PM. We invite all members to attend as this will be the last meeting prior to the summer break.

Please note: there will be no potluck in June due to the many other activities taking place.

OAP REPORT

Just a quick peek into July: our annual MEMBERS picnic will be held **Tuesday, July 10th at 3:00 PM**. The theme is DENIM AND DIAMONDS!!! Dig out your favourite denim jeans, jacket, vest or whatever and decorate it with diamonds. The dollar stores have lots of stick on "diamonds", so go crazy and come out and enjoy the picnic fun. Further information will be in July Flyer.

By the way, a big thanks goes out to the Garden Club for giving us their left over plants from their very successful plant sale. We'll make great use of them at our upcoming Gigantic Garage Sale.

Can you believe that we have no OAP birthdays in June?!?!

HAPPY FATHER'S DAY

TO ALL OUR FINE DADDIES
AND GRANDDADDIES!

What my Community Office can help you with:

- Provide information on locating government services and contact information
- Assist in understanding government policies and services
- Attend community events
- Provide congratulatory and greeting messages
- Provide government documents, legislation discussion papers and other web-based forms if you don't have internet access
- Resolve issues you may be having with provincial ministries or agencies. However, by law, there are some things we cannot help you with.

Unfortunately, we cannot help you if:

- You have or need to retain a lawyer to represent you pertaining to your case;
- Your matter is pending before the courts.
- The police are involved. We cannot make inquiries about police investigations. If you have a complaint about police conduct, please direct them to the Office of the Police Complaints Commissioner.

We are unable to:

- Offer legal advice or assist with legal action
- Overturn the decision of any provincial government ministry or body
- Influence processes set up in law to be independent of the Legislature - such as Ombudsman, Police Complaints Commissioner, Representative for Child and Youth.
- Change the time limits for filing appeals
- Take on casework that is federal or municipal in nature
- Interfere with federal or municipal issues
- Settle disputes between businesses or neighbours
- Find constituents housing
- Find constituents employment

WE HAVE A VERY SPECIAL

performance at the Fanny Bay Community Hall on **Friday June 29th** with a visit from the 40 voice choir of the Maritime University of Szczecin, Poland.

The choir has been invited to participate in the International Choral *Kathaumixw* in Powell River. This is a biennial festival and we have been lucky enough to arrange for them to perform a one hour concert. Their repertoire covers a wide range of music, from sacred to folk, gospel and pop (think Beatles, Elton John.....). They have won many International choral awards. This will be a unique opportunity to see a choir of this high calibre performing in Fanny Bay.

The performance begins at 2:00 pm, with doors opening at 1:30 pm. Tickets will be available by early June at Laughing Oyster Books in Courtenay, Weinberg's Good Food in Buckley Bay and Salish Sea Market in Bowser.

Due to the size of the choir at \$15, tickets, will need to be restricted in number. See you there!

by Neville Hope

BAYNES SOUND GARDEN CLUB

I hope that you were all able to visit the wonderful Plant Sale at the Fanny Community Bay Hall on Saturday May 12th. So many treasures to take home, find a space for and nurture.

Our next meeting is **Thursday June 7th, 7 PM** at the OAP Hall. The guest speaker is Geoff Ball who will have a presentation on Milner Gardens' history, development and programming.

Come join us for an interesting and informative evening.

Guests and new members are always welcome.

FANNY BAY NATURALLY

Comets, sunbeams, and woodstars don't sound like names for birds, but that's what a particular species was called by those who first discovered them. Now we call them hummingbirds, named for the buzz or hum of their wings. Two species inhabit our area: Rufous, here from spring to autumn, and Anna's, often a year-round resident. Originally Anna's hummingbirds bred only in southern California and the Baja Peninsula, but the introduction of exotic ornamental plants in the Pacific Northwest has allowed the species to expand its range.

The Anna's male is green with a metallic rose-red crown and throat (the

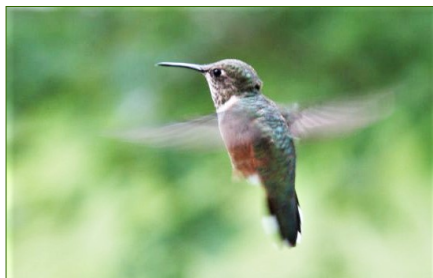

only North American hummingbird with a red crown), while the female is almost entirely green with a white underside and spots of red on the throat. The Rufous male is almost entirely orange,

with a glistening orange-red (rufous) throat patch. The Rufous female is green with a

white underside, rufous sides, and small spots on the throat.

These tiny birds beat their wings up to 80 times per second. Their top flight speed, as measured in wind tunnels,

exceeds an amazing 54 km/h and they can fly as far as 3200 km during migration. The tiny hummingbird's heart rate can reach 1,260 beats per minute, with a breathing rate of up to 250 breaths per minute!

Hummingbirds begin nesting as early as mid-December and as late as June. The female builds a small round nest,

one to two inches wide, in a shrub, tree, or vines, or attached to artificial structures, one to fifteen metres above the ground.

Constructed of plant material, downy feathers, and animal hair, camouflaged with lichen and plant debris, and bound together with cobwebs, these small nests are difficult to spot. Please look carefully for them before pruning!

Small insects are an important protein source for hummingbirds, but they also feed on nectar from flowers. To create a long-season hummingbird garden, use a variety of plants with staggered bloom times and keep in mind that hummingbirds are most attracted to colourful flowers with tubular blossoms.

Although natural nectar sources are preferable, sugar-water from feeders can provide a reliable source of energy when flowers are less abundant. Select a feeder that has some red components, with several "ports." Since the feeder must be cleaned regularly (at least every week, more often if temperatures are high or if it's in the sun) with a bottle brush and hot water with a little vinegar to prevent mold and bacteria, your first choice should be a feeder with a wide opening, preferably glass for the "jar" part (easier to keep clean than plastic). A ratio of one part white granulated sugar to four parts water is the recommended recipe (*a heavier sugar solution can cause fatal hardening of the liver*). Boil the water for one minute and stir in the sugar until dissolved, then remove

from heat and let cool before filling the feeder. Extra solution can be refrigerated in a glass jar with lid for three or four weeks. Organic and raw sugar, brown sugar, agave syrup, molasses, artificial sweeteners, and honey should NOT be used for various health related reasons. Red food colouring, once thought to be required, is now considered unnecessary.

In addition to food sources, providing trees and shrubbery for shelter and nesting, and plants with large leaves that collect water after a rain or heavy dew will help attract these fascinating little birds to your yard. With some knowledge and a little effort, you can easily provide

hummingbirds with a suitable and safe habitat that will reward you with hours of enjoyment watching their high-energy activities.

by Jackie Dunham

Photos by Wendy Keating

BEAUFORT WATERSHED STEWARDS is preparing for our first season of stream monitoring. Thanks to several generous donations we have the money to purchase the required equipment. In early July two BWS members will attend training sessions, sponsored by the Regional District of Nanaimo, to learn how to use the equipment.

In July and August, during the low flow periods, and then again in the fall when the heavy rains arrive, we will take samples from Wilfred Creek, Cougar-Cowie Creek and Mud Bay Creek. We will measure turbidity, dissolved oxygen, temperature and specific conductivity. The data we gather will help us to understand how these important watersheds respond to varying climate conditions and to get a sense of their overall health. Our goal over the next several years is to create baseline data which will allow us to track trends and respond to problems as needed in the future.

BWS believes that citizen oversight is an important to the management of our watersheds. Please join us because Every Drop Counts!

The Fanny Bay Flyer is published monthly (except January) by the Fanny Bay Community Association [FBCA], a non-profit society and registered charitable organization. Opinions expressed in the Flyer are not necessarily those of the FBCA or the editor. While every effort is made to ensure the accuracy of the Flyer's content, neither the Association nor the Editor assume responsibility for any misprints or errors, which may appear in the information given and printed within. Submit camera ready artwork - jpg, gif, tif - or inquires to flyer@fannybaycommunity.com

FLYER DEADLINE IS THE 20th OF THE PREVIOUS MONTH

The FBCA Board of Directors will promote activities that enhance the quality of life for Fanny Bay residents. The Board seeks community input, invites participation, encourages the use of the Fanny Bay Hall as a place to gather, share, foster and deepen the sense of community while maintaining the existing structure in good condition. The FBCA gratefully acknowledges the support of the Province of BC through a Community Gaming Grant which enables the delivery of low cost programs & activities.
