

NEW BUSINESS

It is recommended to do some future planning and look at having a map done for the whole system as well as hiring someone to do an investigation to take advantage of some of the other water sources available to tap into. Wayne will talk to his contacts to find out who to set up a relationship with to do this – ground penetrating radar.

Alan will investigate doing a hot tap for the Jarrett's water needs but we are waiting for them to contact us again.

Lock is broken on the Tower and will need to be replaced.
